[illegible][illegible]

A 9x9 grid representing a 3x3x3 cube. The grid is yellow with black borders. The top row of the grid is labeled with numbers 20, 10, 12, 3, 3, 11, 17, 9, 17. The left column is labeled with numbers 307, 21, 7, 3, 28, 21, 5, 5, 13, 9. The grid contains several numbers: '9' at row 7, column 6; '1' at row 3, column 7; '1' at row 4, column 8.

[illegible]

The grid is a 9x9 matrix with the following row and column indices (starting from 0 at the top-left):

- Row indices (left): 26, 26, 3, 14, 10, 31, 9, 2, 5
- Column indices (top): 4, 9, 10, 2, 20, 18, 19, 32, 22

The grid contains the following black squares (row, column):

- (0, 0), (0, 1), (0, 2), (0, 3), (0, 4), (0, 5), (0, 6), (0, 7), (0, 8)
- (1, 0), (1, 1), (1, 2), (1, 3), (1, 4), (1, 5), (1, 6), (1, 7), (1, 8)
- (2, 0), (2, 1), (2, 2), (2, 3), (2, 4), (2, 5), (2, 6), (2, 7), (2, 8)
- (3, 0), (3, 1), (3, 2), (3, 3), (3, 4), (3, 5), (3, 6), (3, 7), (3, 8)
- (4, 0), (4, 1), (4, 2), (4, 3), (4, 4), (4, 5), (4, 6), (4, 7), (4, 8)
- (5, 0), (5, 1), (5, 2), (5, 3), (5, 4), (5, 5), (5, 6), (5, 7), (5, 8)
- (6, 0), (6, 1), (6, 2), (6, 3), (6, 4), (6, 5), (6, 6), (6, 7), (6, 8)
- (7, 0), (7, 1), (7, 2), (7, 3), (7, 4), (7, 5), (7, 6), (7, 7), (7, 8)
- (8, 0), (8, 1), (8, 2), (8, 3), (8, 4), (8, 5), (8, 6), (8, 7), (8, 8)

The grid also contains the number '1' in the following cells (row, column):

- (0, 8)
- (1, 7)
- (2, 6)

A 10x10 grid representing a 1000x1000 matrix. The grid is mostly yellow, with some cells containing black numbers. The numbers are: 545 (top-left), 5, 24, 13, 8, 6, 11, 13, 6, 2 (top row); 8, 3, 8, 28, 2, 2, 5, 20, 28 (left column); 1, 1, 1 (middle-right area).

A 9x9 grid representing a crossword puzzle. The grid has thick black borders around each row and column. Some cells are filled yellow and contain the number '1'. The numbers are located at (row, col) coordinates: (1, 1), (2, 2), (3, 3). The grid dimensions are indicated by numbers 1-9 along the top and left edges.

A 10x10 grid with thick black walls and dashed yellow lines. Numbers are placed in specific cells: 33, 7, 15, 5, 15, 7, 11, 32, 7 at the top; 27, 17, 29, 6, 23, 5, 2, 20, 28 on the left; and 9, 1, 9 in the center. The grid is mostly yellow with black walls.

A 9x9 grid representing a 3x3x3 cube. The grid is yellow with black borders. The top row is labeled with numbers 6, 18, 6, 2, 12, 15, 26, 14, 24. The rightmost column is labeled with numbers 14, 8, 14, 25, 8, 14, 16, 27, 13. The grid contains the numbers 1, 1, and 9 in specific cells.

A 10x10 grid representing a 1000x1000 square divided into 100 smaller squares. The grid is labeled with row and column indices. The top row is labeled 938, 27, 13, 12, 29, 5, 6, 8, 6, 20. The left column is labeled 10, 17, 18, 15, 18, 16, 12, 27, 21. The grid contains several '9' labels: one at (row 18, column 8), one at (row 15, column 6), and one at (row 18, column 3). The grid is divided into regions by thick black lines, and dashed lines indicate the boundaries of the 100 smaller squares.
