

[illegible]

A 9x9 grid representing a 3x3x3 Rubik's cube. The grid is yellow with black outlines. Numbers are placed in specific cells: 13, 10, 29, 5, 29, 9, 8, 21, 5 across the top; 26, 15, 8, 22, 20, 8, 5, 15, 9 down the left; and 1, 9, 9, 1, 9, 1, 9, 1, 9 in the center. The grid is divided into 27 smaller squares by dashed lines.

A 10x10 grid representing a 2D lattice. The top row is labeled with values: 1039, 15, 5, 20, 7, 26, 23, 25, 16, 20. The left column is labeled with values: 13, 15, 13, 11, 11, 23, 6, 20, 11. The grid contains several black squares, and three of these squares are labeled with the number '1'.

[illegible]

A 9x9 grid representing a 3x3x3 Rubik's cube. The grid is yellow with black outlines for the cube's faces. The top face has numbers 19, 6, 13, 33, 5, 9, 11, 2, 8. The right face has numbers 17, 13, 24, 7, 23, 11, 17, 18, 13. The bottom face has numbers 9, 9, 9. The middle face has numbers 9, 9, 9.

A 9x9 grid representing a 3D cube's faces. The top face has numbers 1185, 29, 12, 19, 14, 7, 28, 19, 4, 6. The front face has numbers 9, 12, 23, 4, 14, 28, 10, 18, 3. Some cells contain additional numbers: row 1 col 4 is 9, row 2 col 3 is 1, row 3 col 2 is 9.
