

[illegible]

A 10x10 grid with thick black borders and dashed lines. Numbers are placed in the top and left margins. The top row numbers are 37, 6, 21, 20, 19, 15, 7, 13, 33, 8. The left column numbers are 14, 18, 10, 5, 27, 21, 7, 2, 22. Inside the grid, the number '1' is in the cell at row 21, column 4, and the number '9' is in the cell at row 7, column 5.

A 10x10 grid with a yellow background and a black dashed grid. The grid is divided into regions by thick black lines. Numbers are placed in the top and left margins, and some cells contain numbers. The top margin numbers are 31, 8, 33, 31, 7, 4, 2, 2, 11. The left margin numbers are 46, 6, 18, 15, 8, 8, 11, 23, 3, 8. The grid contains numbers 9, 9, and 1 in specific cells.

A 9x9 grid representing a 3D volume. The grid is divided into 27 smaller cells by dashed lines. Thick black lines form a 3x3 grid pattern, dividing the volume into 27 smaller cubes. Some cells contain numbers: '1' in the center, '9' in the top-right and middle-right, and '20' in the bottom-right. The top and bottom edges are labeled with numbers: 383, 22, 28, 4, 14, 4, 17, 6, 18, 24. The left edge is labeled with numbers: 12, 5, 32, 13, 2, 13, 16, 8, 20.

A 9x9 grid with thick black borders and dashed yellow lines. Numbers are placed in the top and left margins. The top row numbers are 8, 4, 33, 7, 31, 7, 4, 7, 32. The left row numbers are 14, 4, 3, 24, 15, 19, 7, 33, 6. The grid contains the numbers 9, 1, and 9 in specific cells.

A 9x9 grid representing a 3x3x3 Rubik's cube. The grid is yellow with black borders. The top row is labeled with numbers 12, 20, 15, 4, 28, 5, 24, 8, 17. The left column is labeled with numbers 33, 7, 14, 29, 5, 7, 6, 3, 8. The grid contains numbers 1, 9, and 9 in specific cells, representing the solved state of the cube.

A 9x9 grid representing a 3D volume. The grid is divided into 27 smaller cells by dashed lines. The top row is labeled with numbers 6, 8, 2, 5, 2, 10, 32, 12, 6. The left column is labeled with numbers 5, 30, 4, 29, 33, 12, 17, 23, 8. The grid contains several black rectangular outlines of varying sizes, representing a 3D structure. Some cells contain the number 1.

A 10x10 grid representing a 1000x1000 square divided into 100 smaller squares. The grid is labeled with numbers 1 through 31 along the top and left edges, indicating the size of the squares. The grid is filled with yellow squares, and the numbers 1, 9, and 1 are placed in the center of the grid.
